2018

CORPORATE PROFILE

ESTABLISHED IN 1987,
**SRI TRANG AGRO-INDUSTRY
PUBLIC COMPANY LIMITED (STA)**

is currently **the world's largest fully integrated natural rubber company** with a market share of 10% of global natural rubber consumption.

STA has gained considerable experience and strong foothold in the natural rubber industry. STA has operations in every sector of the natural rubber industry, from rubber plantations and rubber processing to the manufacture of medical examination gloves.

The core of STA operations is natural rubber processing. STA produces a complete range of natural rubber products, from Technically Specified Rubber (TSR) and Ribbed Smoked Sheets (RSS) to Concentrated Latex (LTX).

In the downstream sector, Sri Trang Gloves (Thailand) Co., Ltd. (STGT) a subsidiary of STA is Thailand's largest and world's top five manufacturers of medical examination gloves.

STA is the first and the only Thai rubber company that is dually listed on both the Stock Exchange of Thailand (SET) and on the Singapore Exchange (SGX). Today, STA serves as a pillar of Thailand's industrial sector and remains committed to maintaining and continuously advancing Sri Trang's leadership in the natural rubber industry.

“ **RUBBER FUSE
in OUR BLOOD** ”

MESSAGE

from CHAIRMAN

The year 2017 was a challenging year as STA had to contend with another year of persistently low rubber prices, but because of our experience and expertise, we managed to record a sales volume of 1.3 million tons despite the inhospitable industry climate.

We also assumed full control of Sri Trang Gloves (Thailand) Co., Ltd. (STGT), which has been operating for nearly 30 years and is currently Thailand's largest and the world's leading glove producer. We strongly believe that having the ability to independently manage the operations and execute our expansion plan will further strengthen the "Sri Trang Gloves" brand. We also expect significant synergy between the operations of STGT and STA's midstream operations.

This is an opportune moment for us to expand the presence of STGT. The global glove industry is growing steadily as heightened awareness of hygiene fuels demand, particularly in emerging markets like China, India, Africa, etc. Prices of gloves are also not subject to volatility, a factor that should make our overall bottom line look more attractive.

We believe that we are well positioned to take steps to expand our STGT operations, having accumulated nearly 30 years of know-how and industry experience. We also have a strong sale and marketing team who will be instrumental in our strategy to increase market share and gain a foothold in new markets. In 2017, we managed to achieve a record sales volume of 15 billion pieces.

Going forward, we will continue to strengthen our operations throughout the supply chain to gain better market share and wider name recognition in the industry and reinforce our position as a leading natural rubber company. ■

Respectfully Yours,

Dr. Viyavood Sincharoenkul

Chairman / Managing Director

MOVE FORWARD TO THE GREEN RUBBER COMPANY

GREEN RUBBER PRODUCTS

We are committed to delivering to our customers the clean products for safety and hygiene of end-users.

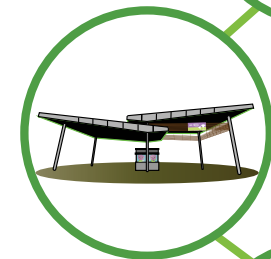

GREEN SUPPLY

We passionately drive the industry towards the clean & clear natural rubber through our fair procurement system with natural rubber farmers and dealers.

GREEN FACTORY

We are committed to a sound concept of safe energy, rid of waste and odor to ensure that our production facilities are environmental and community friendly.

GREEN COMPANY

Is the symbol of our transparency operation and attitudes towards sustainable natural rubber business development.

SRI TRANG Rubber Plantation (SRP)

Our rubber plantations are managed by a team of highly experienced agriculturists. We currently have a large scale of rubber plantations in 19 provinces of Thailand, the majority of which are located in the northern and northeastern regions, areas where the Thai government has instituted a scheme promoting the cultivation of rubber trees.

Our System :

PLANTATION MANAGEMENT

Team of experienced agriculturists who are responsible for all aspects of rubber trees

LAND SELECTION

We have placed an emphasis on land selection, ensuring that every plot of land has been lawfully acquired and is entirely unencumbered

RUBBER SAPLINGS

our own nurseries where rubber saplings are cultivated. Only rubber saplings that are of high quality are selected for the plantations

CULTIVATION PROCESS

Every step in the cultivation of rubber trees is carried out with meticulous care

ANWAR Parawood

“WE USE EVERY
Part of RUBBER TREE”

Anwar Parawood Co., Ltd. produces processed rubberwood and a variety of other woods and manufactures packaging products made of a variety of different woods. These products are for sales to customers and for use by Sri Trang Group Companies.

ENGINEERING Services

NSC - TISI - TIS 17025
CALIBRATION 0024

Established in 1994, Premier System Engineering Co., Ltd. (PSE) is a subsidiary of Sri Trang Group. We manufacture production technology and machinery which are the integral to the maintenance of the “Sri Trang” standard. PSE also provides the full range of engineering services to Sri Trang Group companies so, all products are conformed to the international standards in order to satisfy our customers’ requirements.

PSE is developing the production process continuously and every product is certified by international standards from leading institutions.

Nowadays, PSE offers a wide range of technology and machinery services aiming to support the needs of customers and each factory of Sri Trang Group. The following are some of the services provided by PSE:

01

The design, manufacture and installation of industrial machinery and spare parts

03 IT consulting

04

Research and Development (R&D)

02

Repairing and maintenance of industrial machinery

05

Instrument calibration services, covering volume, temperature, pressure, electrical mass and dimensions

06

Other engineering services, including energy consumption measurement, structural analysis, mechanical vibration measurement and laser alignment

07

Mechanical efficiency consulting

08

Environmental and workplace safety consulting, including heat, light and noise measurement, electrical system certification and crane use certification

sta_ae@sritranggroup.com

STARLIGHT Express Transport Co.,Ltd.

Starlight Express Transport Co., Ltd. helps to control transportation costs and facilitate the delivery of our products as well as ensuring on time services to both local and international customers.

Starlight Express has fleet of over 270 vehicles, including trailers, trucks and storage containers.

Starlight Express provides documentation services to facilitate the import and export of goods by Sri Trang Group companies.

JOINING EXTERNAL AGENCIES

in Developing the Economy, Society and Environment

In 2015, Sri Trang published guidelines for collaboration with external agencies on economic, social and environmental development for rubber industry. Furthermore, STA has joined various organizations to meet the goals according to missions. Here are some of our partners in this area :

Society

- Unicef Thailand
- CSR club, Thai Listed company association
- Department of empowerment of persons with disabilities
- STEM Education Thailand
- Soidog
- RAKMAW.com

Environment

- Water Institute for Sustainability, The Federation of Thai Industries
- SNR-i Member of Sustainable Natural Rubber Initiative (SNR-i)

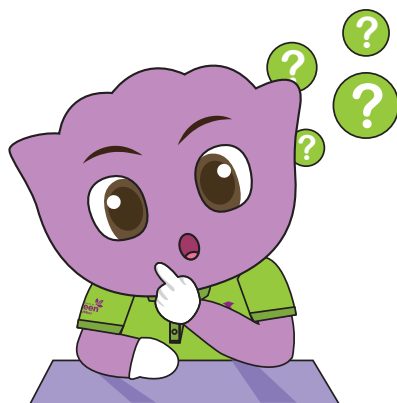

Economy

- Member of Thai Rubber Association
- Member of Thai Latex Association
- Member of Thai Rubber Glove Manufacturers Association (TRGMA)
- Member of Thai Hevea wood association
- Member The Federation of Thai Industries
- Member of Wood Processing Industry Club, The Federation of Thai Industries
- The Federation of Thai Industries provincial chapter
- International Rubber Association (IRA)
- Association of Natural Rubber Producing Countries (ANPRC)
- The Natural Rubber Committee, Ministry of Agriculture and Cooperatives
- International Rubber Consortium Limited (IRCO) Established by the Government of Royal Kingdom of Thailand, Government of Republic of Indonesia and Government of Malaysia
- SGX Rubber committee member, Singapore
- Rubber Trade Association member of Singapore
- Authorized economic operator member, Customs standard procedures and valuation bureau
- Thai National Shippers' Council
- The Thai Chamber of Commerce

“For Tomorrow
we build today”

WHY Sri Trang?

1

PREMIUM RAW MATERIALS SOURCES

Sri Trang evenly covers all major rubber plantation areas in Thailand.

2

SUPERIOR QUALITY STANDARD

Sri Trang applies universal premium quality standard for all of its factories and products.

3

MASSIVE PRODUCTION CAPACITY

With 35+ factories, Sri Trang is able to meet high volume demands and deliver products on time

4

INTERNATIONAL MANAGEMENT

Sri Trang employs field experts under a world class management system to ensure all works are done professionally.
